*Using an Out-of-Network dentist may result in higher out-of-pocket expenses for you. Cigna has negotiated discounts on services provided by contracted (network) dentists. Those providers are required to "write off" any difference in their normal charges for a service and the negotiated fee. Benefits paid for out-of-network dentists, are based on Cigna's Maximum Allowable Charge which is set at the 90th percentile of what is charged by dentists in their area. Out-of-network dentists are free to bill the member for any amounts exceeding the Maximum Allowable Charge.

** Deductible and benefit maximum reset on September 1st

***No vision provider network. Member may use any vision provider.

Please note: Cigna processes dental/vision insurance claims and provides customer service. ID cards for the dental/vision plan are produced by Ascension.
